

## **LEO Club**

We are the leaders of the country. We fight till the end, holding to the Leo banner until we die, and that's the Leo pride. We resemble a true family, with our mother, Ms. Mujuru, taking care of her children like any other family. Leadership Experience Opportunity (LEO) is an international club where leaders are made, seeking the needy and impacting on lives in our society in a positive way. Sympathising with those in distress is what makes us true leaders and companions. Despite being a leadership grooming society, we are also a charity club. We partake in fundraising events (Leo Civvies) and we donate the funds we get to the less privileged.

In our quest to build strong and bold leaders, we hold conventions where Leos are taught on the role of leadership. Because we are young and would like to pose exemplary figures to the society, we do not restrict our nature, hence we allow ourselves to have fun. This brings us to our motto, "Lets Enjoy Ourselves "
